

Astro-Fly LED LTD

Integrated / All-in-one Solar LED Lawn Light

Parameter:

Power: 0.5W

Solar Panel: Mono-crystal silicon 0.5W/2.0VDC

Ni-MH Battery:

14500 Ni-MH AA battery 900mAh / 1.2V

LEDs/Efficiency: 80Lm 8pcs of SMD5050

3000K-6000K, RGBW/ CRI>80Ra

Lamp Shell: ABS+PC, anti-UV, anti-corrosion

Working Modes:

100% brightness -- battery capacity »30%

20% brightness -- battery capacity «30%

Installation: IP68 for outdoor applications on ground or over the water

Package Details:

2pcs / Color box: 95x55x98mm

8pcs / Color box: 195x105x98mm

128pcs /Carton: 405x405x230mm

Unique Features:

- 1, Shape design like a Lucky Clover patent and original design help you to attract more customer on the market;
- 2, Solar powered, free from electricity bill, no wire needed easy installation you can put it everywhere at your garden for decoration;
- 3, 0.5Wp solar panel. 2.0VDC charge voltage. High transfer rate over 18.5% and long life span with 25 years. It is covered by transparent Anti-UV PC, better performance in applications;
- 4, Big capacity Ni-MH AA battery 900mAh, 1.2VDC, 500 times charging cycles -30°C - +50°C working temperature ensure the lamp working stability;
- 5, 8pcs of high brightness LED chip SMD5050. Red, Green, Blue lighting color is available. Total lumen output can meet 80Lm;
- 6, Very easy installation, you can put it anywhere in your garden with enough sunshine. IP 68 waterproof, no matter it is rainy or snowy days.
